

COMMERCIAL CONTRACT ENGINEERS **CELEBRATES 25 YEARS OF SUCCESS**

To celebrate 25 years of successful operation, Commercial Contract Engineers held a 'Winter Wonderland' black-tie ball at The Belfry House Hotel in Wilmslow for over 450 guests.

Phil and Wendy Ewbank were joined by friends, employees, family, clients and local and national journalists to celebrate 25 years of the Rochdale-based repairs and maintenance company.

With 'Frank Sinatra', dancers, competitions with outstanding prizes, including a once in a lifetime Caribbean holiday and its very own 'Strictly Come Dancing' competition amongst a host of entertainments, Phil and Wendy and their guests celebrated in style.

Phil Ewbank, Managing Director, Commercial Contract Engineers, commented at the celebration: "This is our way of saying a very big thank you to all our clients and most importantly to our employees, for it's their dedication and commitment to quality and customer service that has made Commercial Contract Engineers the success story it is today. If I had looked into the future when we started this

business I could not have imagined what we have become today – you have all helped make this possible.

“I hope everyone enjoyed the ball as much as we did.”

CCE started life a quarter of a century ago with just a handful of staff, but now employs 48 people and occupies a position as one of the top four accident repair and vehicle maintenance specialists in the UK for cars, commercial vehicles, trailers and vans.
