

COMMERCIAL CONTRACT ENGINEERS
RUNNERS UP TO THE COMMERCIAL VEHICLE BODYSHOP OF
THE YEAR

At a recent award ceremony held at the Hilton, Hammersmith, London, the Rochdale-based Commercial Contract Engineers were runners-up to the highly prized 'Commercial Vehicle Bodyshop of the Year'.

The event, sponsored by the Bodyshop Magazine, was attended by over 900 guests from across the industry and celebrated excellence in bodyshop work.

The prestigious awards were judged by independent assessors, experts in their respective fields, including past Award winners.

Phil Ewbank, Managing Director, Commercial Contract Engineers, commented:
"We were delighted to be awarded runners-up to the Commercial Vehicle Bodyshop of the Year. This is a glowing testament to CCE and most importantly, the hard work and commitment of our staff."

“When we started CCE all those years ago, we had a vision to become one of the best. We are now recognised as one of the premier maintenance and repair specialists in the UK, as this significant industry award demonstrates.”

“The team at CCE is ambitious for the future and we will strive to win this award next year – what will be a most fitting accolade for our silver anniversary!

CCE has a glowing record of achievement which includes the Bodyshop Magazine Award in 1999 and the Bodyshop Commercial Vehicle Award itself, in 2001.
